

This diagram illustrates the UI structure of a financial application's dashboard, specifically focusing on the 'Resumo' (Summary) section.

The main components include:

- Filtrar** (Filter) button: Located at the top left, with the class name `open-filters-button`.
- Resumo** (Summary) section: Contains **Entradas** (Incomings), **Saídas** (Outgoings), and **Saldo** (Balance).
- Table**: A central table showing transaction details. It has columns for **Data**, **Descrição**, **Categoria**, and **Valor**.
- Actions**: Buttons for **Adicionar Registro** (Add Record) and **Apagar item?** (Delete Item?) with **Sim** (Yes) and **Não** (No) options.

Annotations provide specific class names for various UI elements:

- Container Headers:** `container-header` (top header), `container-filters` (filter sidebar), and `container-resume` (summary container).
- Form Fields:** `min-value` and `max-value` input fields for filters.
- Buttons:** `btn-clear-filters`, `btn-apply-filters`, `btn-add`, `btn-edit-icon`, and `btn-delete-icon`.
- Table Structure:** `table-head` (thead), `table-line` (tbody row), and `table-body` (tbody).
- Icons:** `icon-filter` (filter icon), `edit-icon` (edit icon), and `delete-icon` (trash icon).
- Text Labels:** `id date`, `id week-day`, and `id value` used as labels for specific fields.

The table data is summarized below:

Data	Descrição	Categoria	Valor
01/09/21	Venda dos brigadeiros	Pix	R\$ 100,00
02/09/21	-	Lazer	R\$ 58,50
03/09/21	Sexta	Alimentação	R\$ 12,00
06/09/21	Venda dos casadinhos	Pix	R\$ 100,00
